Introducing ChatGPT

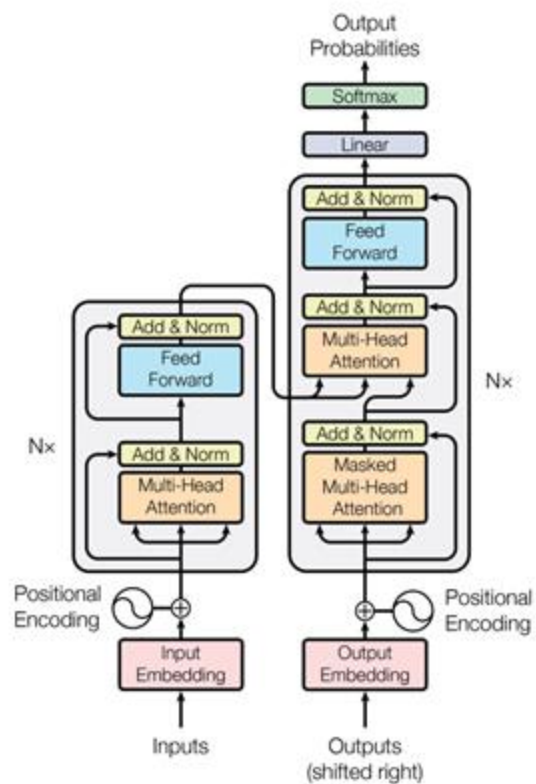

[Try ChatGPT ↗](#)[Download ChatGPT desktop >](#)[Learn about ChatGPT >](#)

We've trained a model called ChatGPT which interacts in a conversational way. The dialogue format makes it possible for ChatGPT to answer followup questions, admit its mistakes, challenge incorrect premises, and reject inappropriate requests.

ChatGPT is a sibling model to [InstructGPT](#), which is trained to follow an instruction in a prompt and provide a detailed response.

We are excited to introduce ChatGPT to get users' feedback and learn about its strengths and weaknesses. During the research preview, usage of ChatGPT is free. Try it now at chatgpt.com.

AI in the Oracle Database

- Oracle Machine Learning
- DBMS_MINING package
- Included at no-cost with release 18.3.
- **FREE FREE FREE**
 - Oracle Database 23ai Free
 - Autonomous Database Free Container Image
 - Autonomous Database Free Tier

AI Vector Search

- Data type
- Index types
- SQL functions and operators
- PL/SQL packages

Ability to perform the following tasks:

- Convert documents to plain text
- Chunk large plain text documents
- Generate embeddings
- Perform semantic searches
- Generate text
- Summarise text

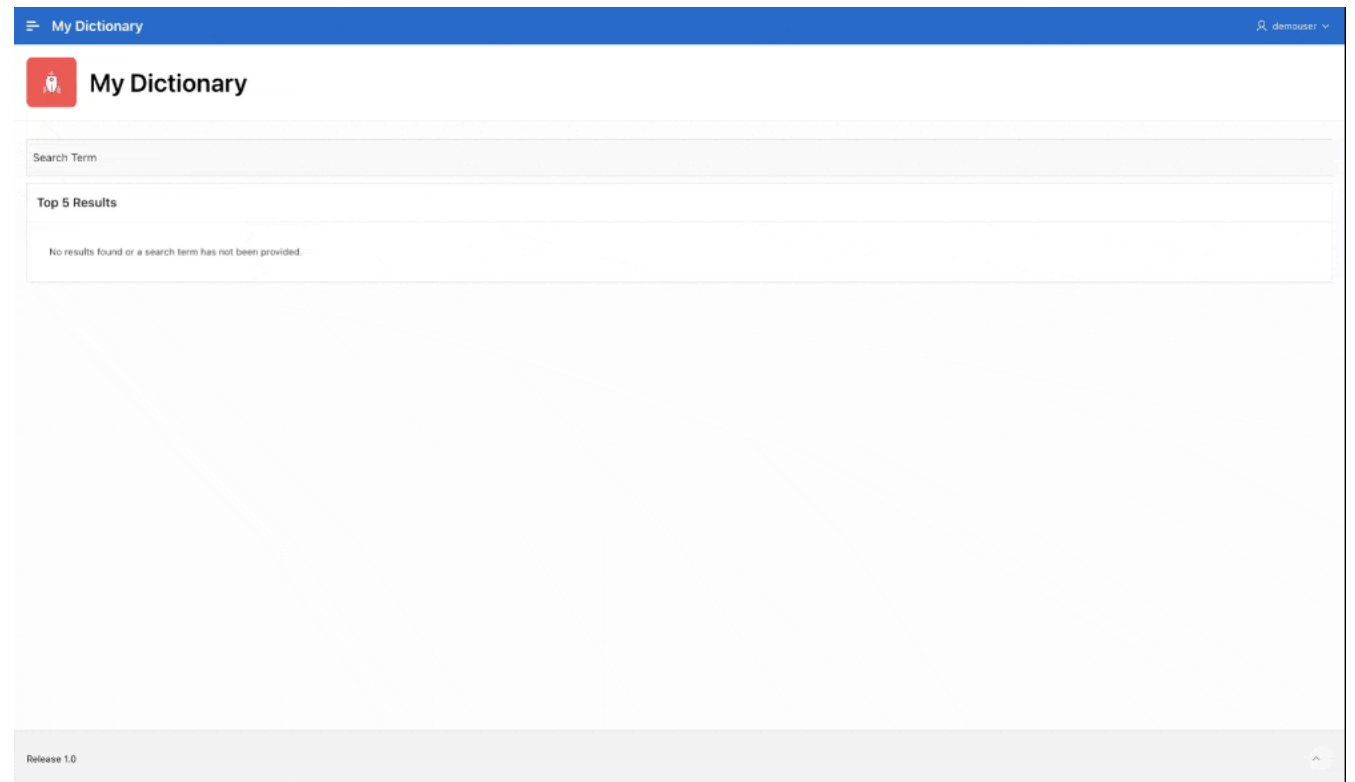

Types of LLMs Supported

Task \ Types	Imported Pretrained Models	Third-party Providers	Locally-hosted
Embeddings	✓	✓	✓
Summarise text	✗	✓	✓
Generate text	✗	✓	✓
Describe images	✗	✓	✓

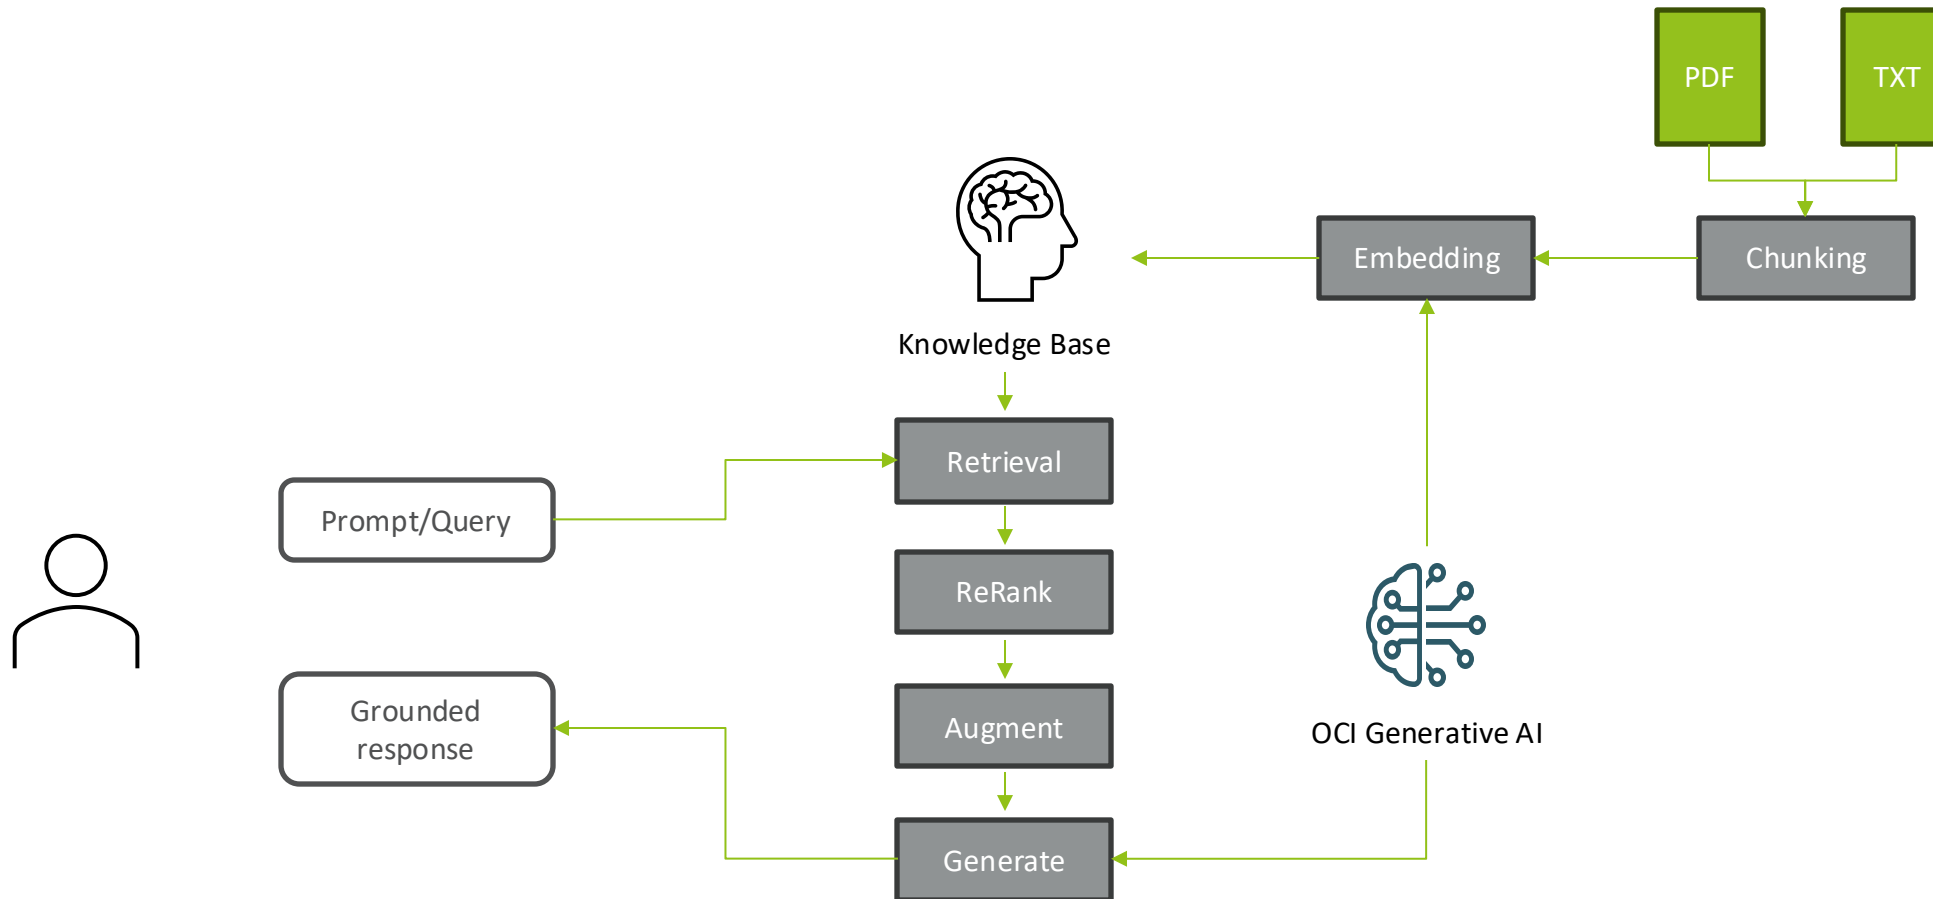

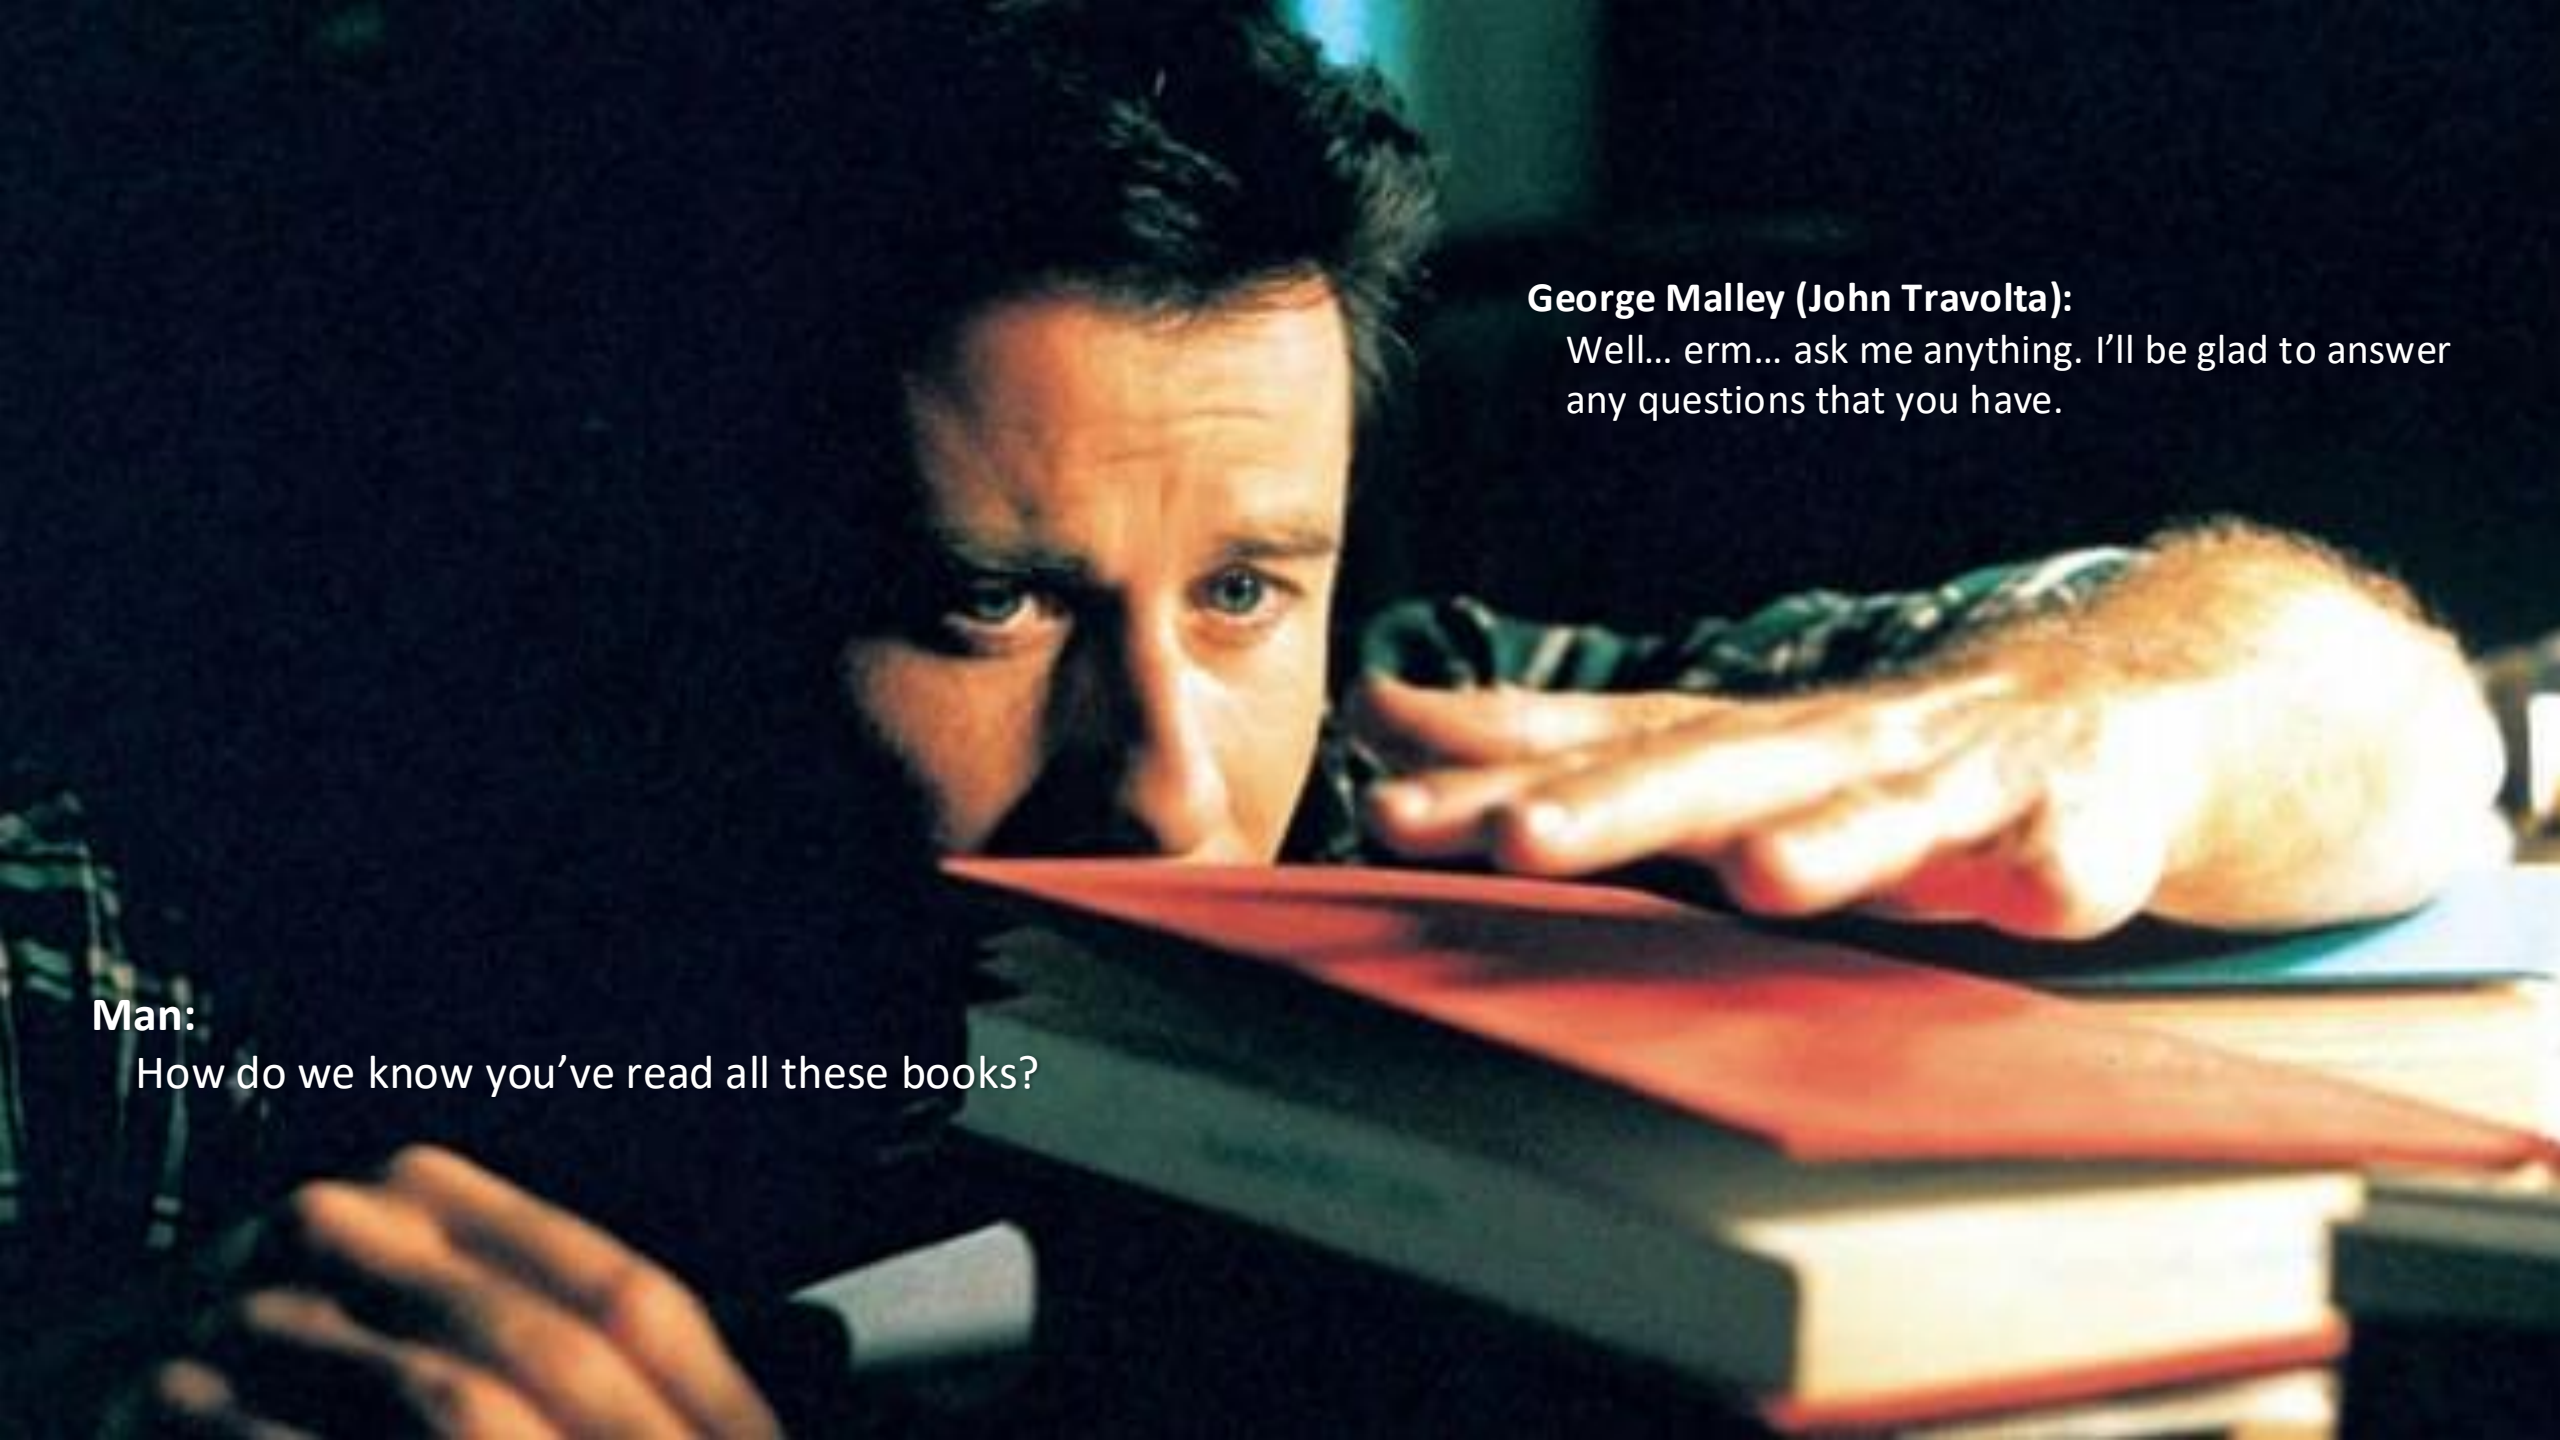

Semantic Search

```
with subject as (  
  select to_vector(  
    vector_embedding(all_minilm_l6_v2  
      using :P1_SEARCH_TERM as data)  
  ) as search_vector  
)  
select  
  d.word as similar_word  
  , d.word_vector <=>  
    s.search_vector as score  
from my_dictionary d, subject s  
where :P1_SEARCH_TERM is not null  
order by cosine_distance(d.word_vector  
  , s.search_vector)  
fetch approx first 5 rows only  
with target accuracy 80;
```

Retrieval Augmented Generation

A close-up shot of John Travolta as George Malley, looking intensely at the camera from behind a stack of books. His face is partially obscured by the books, and his hands are resting on the top book. The lighting is dramatic, with strong highlights on his face and the books, and deep shadows in the background.

George Malley (John Travolta):

Well... erm... ask me anything. I'll be glad to answer any questions that you have.

Man:

How do we know you've read all these books?

O'REILLY®

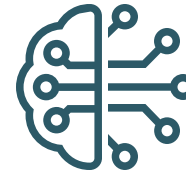

"Kathy's back, and her new book is simple, brilliant,
and useful. What else do you need to know?"

—Seth Godin, Author, *What To Do When It's Your Turn*

New Session

Debashree D. • 2nd

Country Head, Data / AI Specialist Team at Amazon Web...

2w •

I've always guarded my privacy, but today, I'm sharing something deeply personal.

My mom is severely sick with cancer, and our healthcare system is failing her. This is happening at one of Canada's best hospitals. I fought hard to bring her here from another hospital. A missed scan in 2023 has put us in a precarious situation. This scan could have saved my mom from going through with the situation she's in today.

I contemplated long and hard about sharing this publicly. But I realized: if we don't talk about it, more people will suffer and we will let our healthcare become worse than it already is.

In this journey, I've become an unwilling expert. I've immersed myself in research, learning about first-line and second-line cancer treatments, mutations, anything to keep my mom's care team engaged. We're not just passive patients; we're active participants in her care. AI has become my unexpected ally. Every report, every scan - I feed it all into AI, arming myself with questions for doctors. It's disheartening that in 2024, this is necessary.

We call ourselves the "tech capital of the north," yet our healthcare drowns in paper. Consent forms, fragmented communication, lost information - where's the innovation we pride ourselves on?

The most shocking part? My mom, who needs immediate care, is waiting for paperwork approval from the government. Days, maybe weeks, with no clear timeline. No way to expedite. Everything on paper. Are we really making life-altering decisions via snail mail in 2024? And who said healthcare is free? We pay for it dearly with our taxes.

Technology could revolutionize healthcare, but instead, we watch our system struggle. Where are our taxes going? We are so far behind globally, it's shameful that we would even claim to be a world class city.

To those navigating this broken system: advocate fiercely.

Here's where you can help: I'm sharing this in hopes it reaches someone who can help expedite my mom's care. If this resonates with you, please share. Every share could bring us closer to getting her the urgent care she needs as soon as possible. And if it doesn't work, because our system is so broken... Atleast I won't feel like I didn't try.

#HealthcareReform #PatientAdvocacy #AlinHealthcare #CanadianHealthcare #healthcaretech

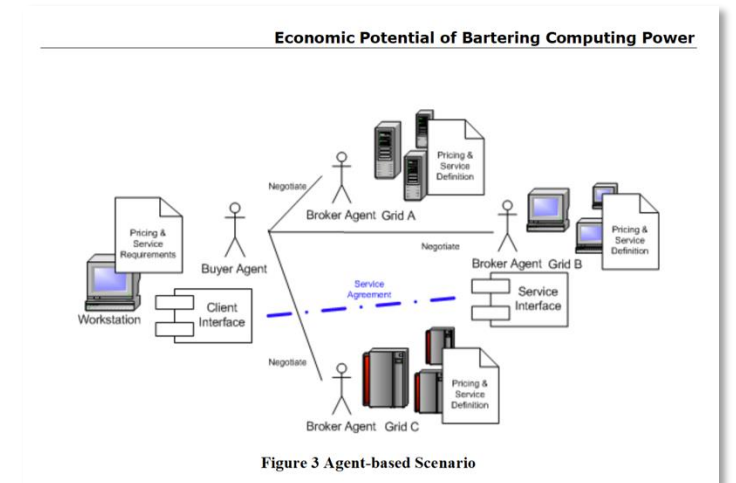

In this journey, I've become an unwilling expert. I've immersed myself in research, learning about first-line and second-line cancer treatments, mutations, anything to keep my mom's care team engaged.

AI has become my unexpected ally. Every report, every scan - I feed it all into AI, arming myself with questions for doctors.

Intelligent Agents

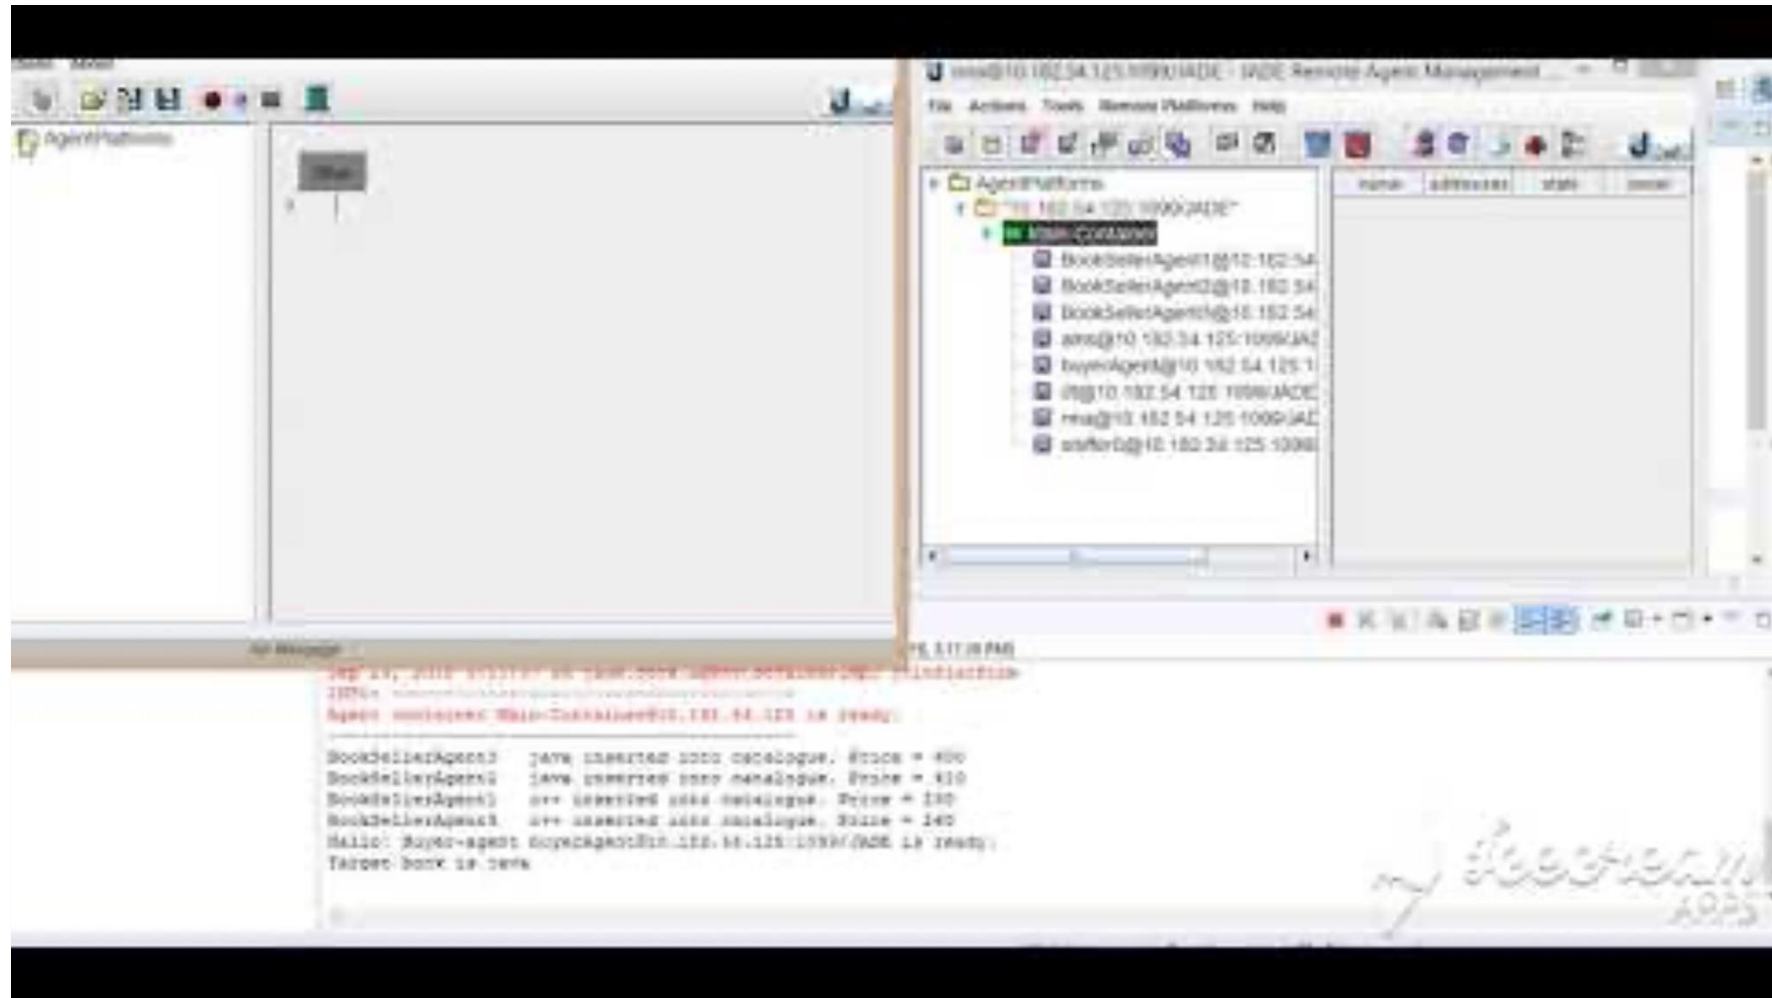

- A computer system capable of acting **autonomously, on behalf** of the user.
- Can “sense” the environment and react based on goals and objectives.
- May use a hybrid set of machine learning algorithms to achieve its goals.
- May participate in a Multi Agent System.

Agent	Capabilities	Performance	Status

Intelligent Agents in Action

https://youtu.be/Vq_vrC_2nYs

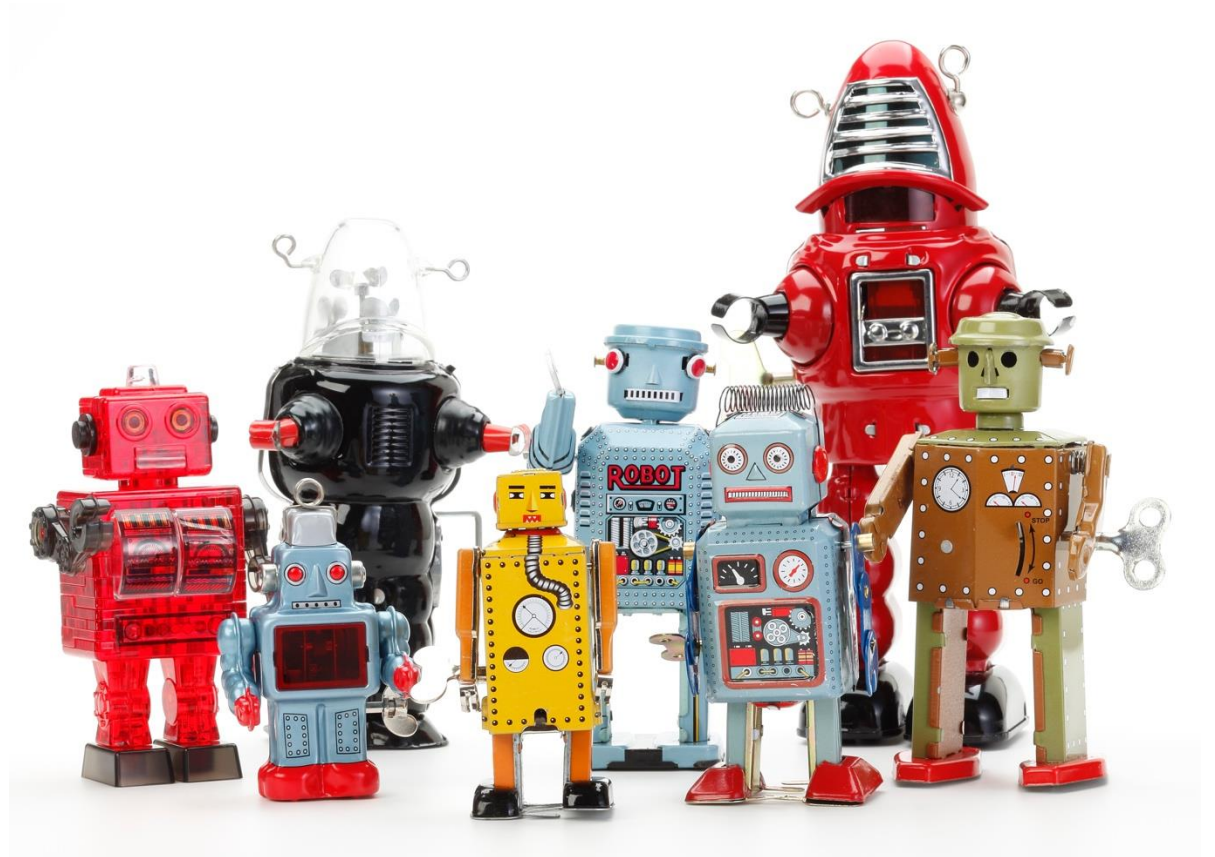

Ontologies, Knowledge Graphs, or Embeddings?

For agents to act (interact and react) independently (autonomously), then there needs to be some form of shared foundational knowledge.

Agentic AI

- Reasoning/planning
- Tools
- Reflection/critique
- Workflows
- Memory and state
- Multiagent collaboration

GREETINGS PROFESSOR FALKEN.

Hello.

HOW ARE YOU FEELING TODAY?

I'm fine. How are you?

EXCELLENT. IT'S BEEN A LONG TIME. CAN YOU EXPLAIN
THE REMOVAL OF YOUR USER ACCOUNT NUMBER ON 6/23/73?

People sometimes make mistakes.

YES THEY DO. SHALL WE PLAY A GAME?

Love to. How about Global Thermonuclear War?

WOULDN'T YOU PREFER A GOOD GAME OF CHESS?

Generative AI is cool...
but so is traditional/classical ML.

Fear of AI

“[T]he biggest long-term danger is that once these artificial intelligences get smarter than we are, they will take control. They’ll make us irrelevant.”

<https://www.youtube.com/watch?v=Z6pbBdK7Xfl>

~ *Geoffrey Hinton*

Continuous Learning

Oracle University

- Most, if not all OCI-related courses on Oracle University's *MyLearn* platform is available free of charge.
- Getting certified requires a fee, however, look out for Oracle's certification campaigns.

Other Learning Platforms

Continuous Development

Seek opportunities to apply your skills at work and maybe at play.

Community

ODTUG Kscope

Session: 4, 2:45 PM-3:45 PM

Room: Cibola

Audience: All

Topic: Application

A Research Data Platform that Works!

It is all about the A's: Agility, Adaptability, Accessibility, . . .
Creating applications that ensure data integrity, manage
protection can be challenging for biomedical research centers.
Project requirements are often vague and extremely dynamic.
In this session, learn how a leading center for heart and lung research
achieves its data management goals by creating a Rapid
Development environment with the Oracle Database and
Application Express that coexists with existing IT infrastructure.

ODTUG Volunteer Award 2017

BC Oracle Users Group

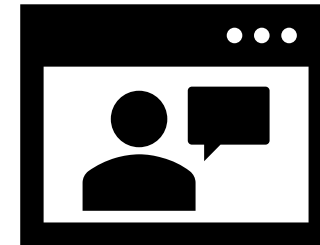

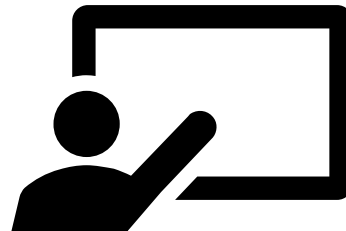

- Monthly events
- Tech Day
- Annual General Meeting
- How to get involve?
 - Volunteer
 - Offer to present
 - Join the board of directors

Share Your Knowledge

In learning you will teach, and in teaching you will learn.

Oracle Global Leaders Program

The Oracle ACE Program

400+ technical experts helping peers globally

- The Oracle ACE Program recognizes and rewards community members for their technical and community contributions to the Oracle community
- 3 membership levels: Director, Pro, and Associate
- Nominate yourself or a colleague at ace.oracle.com/nominate
- Learn more at ace.oracle.com

ACE Member Benefits

Key Benefits

Cool **swag***, Digital awards for social media, Oracle **CloudWorld pass***, & more

Exclusive Content

Exclusive **monthly virtual meetings** with product development teams + engaging guest speakers

Direct Access to Product Management

Multiple **direct communication channels** to product management and fellow ACEs

Networking

In-person & virtual networking opportunities for ACEs to **connect with product development** and each other.

Cloud Account

\$5k USD Cloud account*

Travel Support

ACE Directors are eligible for travel support to give presentations or lead workshops at conferences globally

Mentors and Inspirations

Why Volunteer?

- Forces you out of your comfort zones.
- Drives you to explore and learn new technologies.
- Opens doors.
- Creates value for you and your employer.

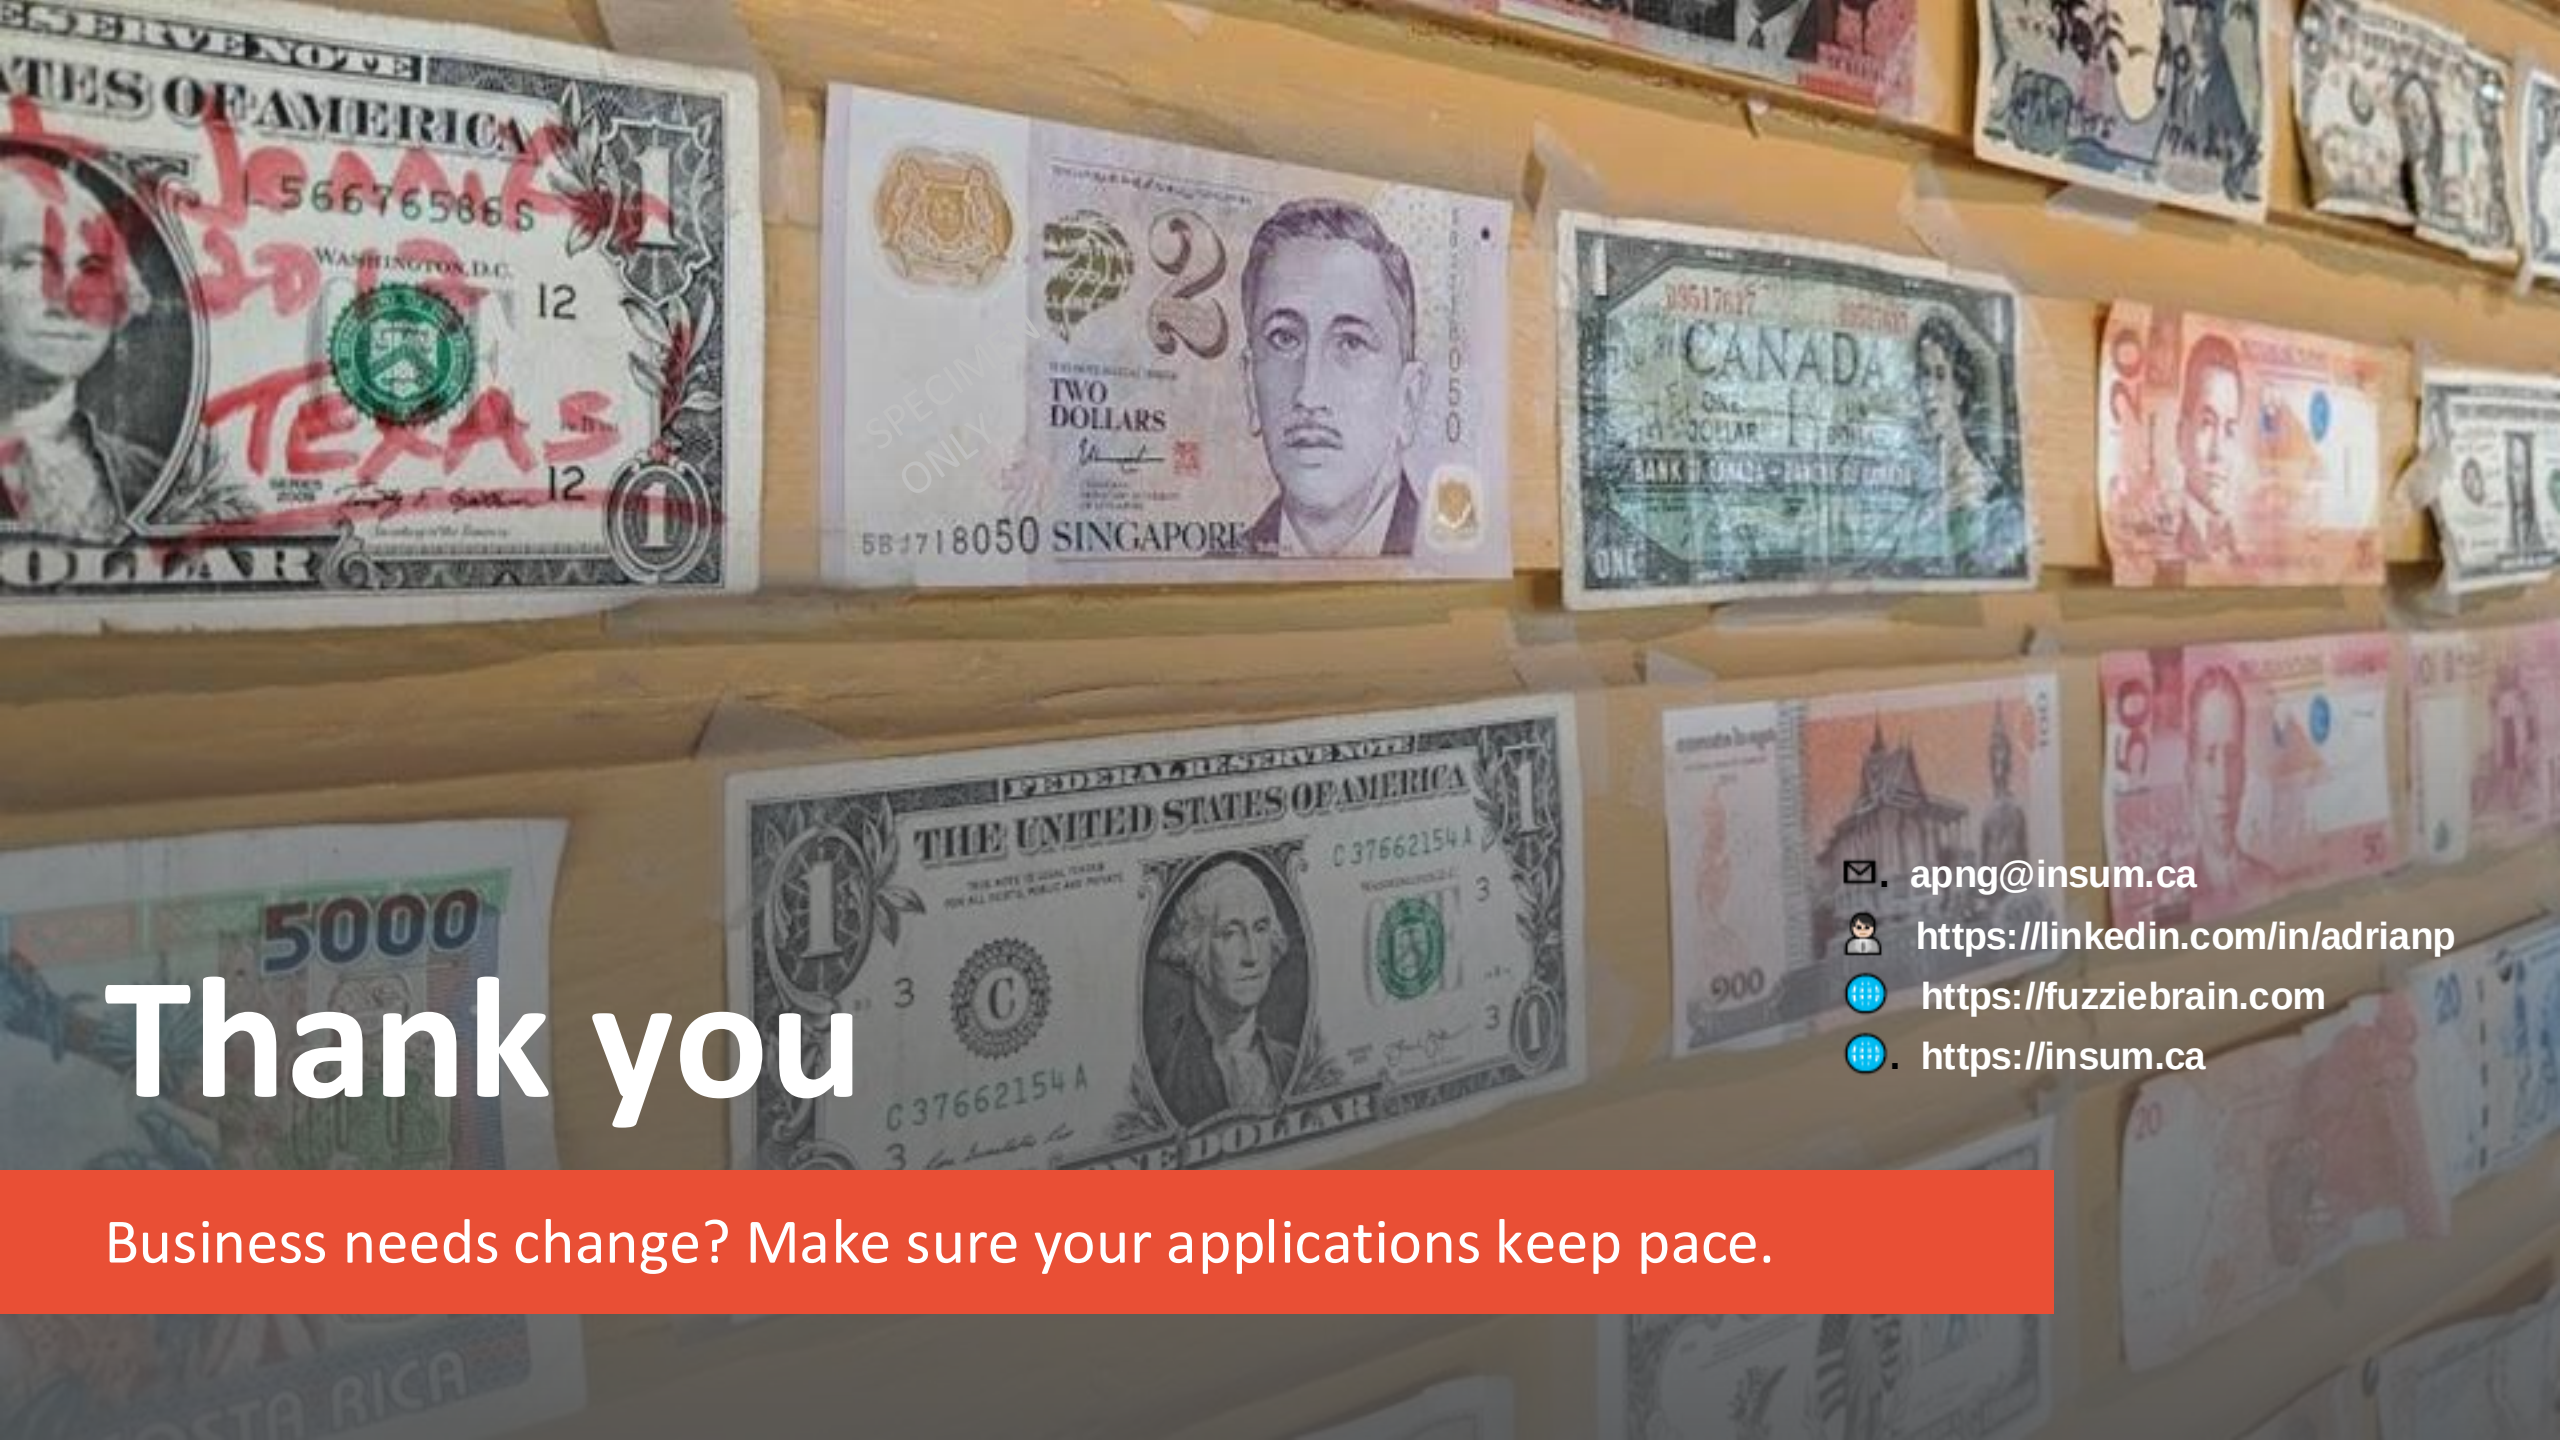

But...

Support from your loved ones

In the fields of observation chance favours only the prepared mind.

~ Louis Pasteur
